SUMMARY

I am a passionate web developer with a strong foundation in front-end technologies, particularly React.js. My journey in web development has equipped me with essential skills in HTML, CSS, and JavaScript, along with experience in building responsive and user-friendly applications.

EXPERIENCE

AJP

ANUDIP FONDATION Trainee

August 2024 – Present, Bhopal, Madhya Pradesh

- At Anudip Foundation, I undertook the AJP course, where I significantly enhanced my skills in core Java, MySQL, and Hibernate.
- This comprehensive training deepened my understanding of backend development, enabling me to create robust applications that interact seamlessly with databases.

Web Developer Trainee

Ducat India

January 2024 – July 2024, Gurugram

- During my training period from January to July 2024, I immersed myself in the world of web development, honing my skills in HTML, CSS, JavaScript, Bootstrap, MongoDB and React.js.
- This transformative journey allowed me to build a solid foundation in creating dynamic and responsive web applications.
- I also became proficient in version control with Git and collaborative development using GitHub, enhancing my ability to effectively in teams.

PROJECTS

Dice Game

Self • [dice-game-nine-jade.vercel.app/](#)

- The Dice Game is an interactive web application built using React.js, designed to provide an engaging and entertaining experience for users.
- The objective of the game is simple: players select a number and then roll a virtual dice.
- The game mechanics involve score tracking based on the outcome of the dice roll compared to the player's selected number.

Add Contact

[add-contact-gamma.vercel.app/](#)

- The contact form allows users to submit their names and email addresses, facilitating direct communication and inquiries.
- This feature is crucial for capturing leads, providing customer support, or gathering feedback.
